

## C Language Syllabus

### **Introduction and First Program** **45 mins**

• Why Programming	21 mins
• History of C Language	10 mins
• Hello World Program	14 mins

---

### **Variables and Data types** **50 mins**

• Identifiers in C	10 mins
• Variables and DataTypes	20 mins
• Constants	20 mins

---

### **Console IO Operations** **48 mins**

• Printf and Scanf	39 mins
• Unformatted IO Functions	09 mins

---

### **Operators and Expressions** **70 mins**

• Expressions and Arithmetic Operators	23 mins
• Relational and Logical Operators	16 mins
• Bitwise Operators	31 mins

---

### **Control Flow Statements** **209 mins**

• If Statement	48 mins
• Switch Statement	21 mins
• Unconditional Branching using goto statement	11 mins
• While Loop	63 mins
• Do While Loop	07 mins
• For Loop	33 mins
• Break and Continue	13 mins
• Special Cases	13 mins

---

### **Working with Functions** **83 mins**

• Introduction and Writing Functions	34 mins
• Scope of Variables,Storage Classes,Pass by Value and reference	35 mins
• Recursion	14 mins

---

### **Working with Arrays** **89 mins**

• Arrays Declaration and Initialization	20 mins
• Sample Programs using Arrays	23 mins
• Arrays as Function Parameters	18 mins
• 2-Dimensional Array	28 mins

---

**Pointers** **142 mins**

• Introduction to Pointers	23 mins
• Pointers as Function Parameter	17 mins
• Pointer Arithmetic	06 mins
• Pointers and Arrays	30 mins
• Function Pointers	32 mins
• Dynamic Memory Allocation using malloc	25 mins
• calloc and comparison with malloc	09 mins

---

**String Handling** **76 mins**

• Introduction to Strings	13 mins
• Sample Program	31 mins
• More Sample Programs	09 mins
• Standard String Library Functions	11 mins
• Array of String	12 mins

---

**Structures and Unions** **71 mins**

• Declaring and Instantiating Structures	18 mins
• Structure as Parameter and Pointer to Structure	15 mins
• Enumerated Data Type	08 mins
• Union	21 mins
• Bit Fields	09 mins

---

**File Handling** **70 mins**

• What is a Stream	18 mins
• File Handling-Writing and Reading Characters	17 mins
• Writing and Reading Structure in Text Format	14 mins
• Writing and Reading in Binary Format	21 mins

---

**Pre-Processor Directives** **42 mins**

• Understanding Pre-Processor directives	23 mins
• Header Files and Project	19 mins

---

**Command Line Arguments and Variable Arguments****20 mins**

- 📁 Command Line Argument 09 mins
  - 📁 Variable Number of Arguments 11 mins
- 

**Searching and Sorting****157 mins**

- 📁 Linear Search 19 mins
  - 📁 Iterative Binary Search 19 mins
  - 📁 Recursive Binary Search 10 mins
  - 📁 Bubble Sort 21 mins
  - 📁 Selection Sort 16 mins
  - 📁 Insertion Sort 17 mins
  - 📁 Quick Sort 30 mins
  - 📁 Merge Sort 25 mins
- 

**Stack****105 mins**

- 📁 Introduction to Data Structures 09 mins
  - 📁 Stack Using Arrays 26 mins
  - 📁 Stack Using Linked List 27 mins
  - 📁 Infix to Postfix Expressions 43 mins
- 

**Queue****41 mins**

- 📁 Queue Using Arrays 24 mins
  - 📁 Queue Using Linked List 17 mins
- 

**Linked List****144 mins**

- 📁 Introduction to Linked List 14 mins
  - 📁 Single Linked List 54 mins
  - 📁 Double Linked List 34 mins
  - 📁 Circular Linked List 42 mins
- 

**Trees****116 mins**

- 📁 Introduction to Trees 27 mins
  - 📁 Programming Tree - 1 51 mins
  - 📁 Programming Tree - 2 38 mins
-
